DETAILED ACTION

Information Disclosure Statement

The IDS filed 5/5/06 has been considered and placed of record. An initialed copy is attached herewith.

Specification

The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

The disclosure should be carefully reviewed to ensure that any and all grammatical, idiomatic, and spelling or other minor errors are corrected.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-15 and 21-32 are rejected under 35 U.S.C. 101 because the claims fall into the juducial exception without any tangible result claimed. Merely determining and obtaining would not appear to be constitute a tangible result, since the outcome of the those steps have not been used in a disclosed practical application nor made available

in such a manner that their usefulness in a disclosed practical application can be realized.

Allowable Subject Matter

Claims 17-20 and 33-40 would be allowable if rewritten to include all of the limitations of the base claim and any intervening claims.
